

Cumulative Index 1986

Clinics in Plastic Surgery, Volume 13

Note: Page numbers of symposia and articles are in boldface type.

SYMPOSIA

<i>January</i>	ADVANCES IN BURN CARE, pp.1-162
<i>April</i>	PERSPECTIVES IN HAND SURGERY, pp. 163-347
<i>July</i>	COMPUTERS IN PLASTIC SURGERY, pp. 349-548
<i>October</i>	LOWER EXTREMITY TRAUMA AND RECONSTRUCTION, pp. 549-756

- Accessory movement, in joint motion, 303-304
Accounts, patient, computer and, 367-368
Achilles tendon, reconstruction of, 671-673
Acquired infections, causes of, in burn care, 40
Action potential, nerve, measurement of, 256, 260
Adhesions, in tendon grafting, 236-238
Adult respiratory distress syndrome, 82
Aesthetic plastic surgery, image processing in, 513-527
Age, and prognosis for nerve injury, 250
Allograft transplantation, 284-285
Allografts, bone, 650-653
 cadaver, in burn care, 100
 cultured, in burn care, 73
American Occupational Therapy Association, 297
American Physical Therapy Association, 297
American Society for Surgery of the Hand, 297
American Society of Hand Therapists, 299
Amputation, alternatives, in lower limb trauma, 595-618
 Ambrose Paré and, 552
 congenital, 169-170, 177-180
 description of, in 1639, 552-553
 during World War I, 563
 during World War II, 564
 history of, 595-596
 in ancient era, 549-550
 in Middle Ages, 550-551
 in modern era, 566, 595-596
 in seventeenth and eighteenth centuries, 553
 in trauma setting, 596-598
 indications for, eighteenth century ideas on, 554
 in modern era, 566-567
 World War I ideas on, 562-563
 levels, lower extremity, ideal, 605-616
 site of, controversy on, 553
 sports participation following, 617
 timing of, controversy on, 554
 "tour de maître," 556
 traumatic, functional stump management following, 600-605
 management considerations in, 598
 principles of management in, 599-600
Anatomy, functional and pathologic, evaluation of, by computer, 389-405
 of ankle, 573
 of foot, 573-574
 of hip, 571-572
 of knee, 572-573
 of lower extremity, 723-724, 737
 of peripheral nerves, 249-250
 of thigh, 581
Anatomy instruction, computerized, 379-387
 modern technology in, 379-382
 traditional difficulties in, 379
Ancient medicine, and hand rehabilitation, 294-295
Anesthesia, introduction of, 555-557
Ankle, anatomy of, 573
Anterior osseous nerve syndrome, 258
Antibacterial agents, in burn care, 29-30, 152
Antibiotic resistance, prevention of, in burn care, 44
Antibiotics, in traumatic wound care, 738-739
Antimicrobial susceptibility studies, in burn care, 46
Antisepsis, beginning of, 559-561
Apert's syndrome, three-dimensional computed tomography in, 468-469
Application programs, 364-365
Argon laser, in hand surgery, 342
Arm, artificial, electronic, 333-337
 robotic, voice-controlled, 510
Art, burns as a subject for, 3-8
Arteriography, in vascular injury, 713, 714, 716-717, 718

- Arthritis, rheumatoid, surgery for, 275-280
- Arthrodesis, in rheumatoid arthritis, 277-278
- Arthroplasty, in rheumatoid arthritis, 278-279
- perichondrial, 283
- silicone replacement, synovitis from, 281-282
- soft-tissue, 285
- Asymmetry syndromes, three-dimensional computed tomography in, 469-471
- Autogenous sural nerve graft, 261-262
- Autografts, in burn care, 63
- Autologous grafting, of flexor tendon sheath, 240
- Avascular necrosis, magnetic resonance imaging in, 342
- Avulsion injuries, lower extremity, 701-710
- quantitative dermofluorometry in, 703, 709, 710
- traditional treatment of, 702
- Axon(s), regeneration of, 253, 263-264
- sensory, studies of, 256
- Axonotmesis, 250, 257
- Bacterial monitoring, in burn care, 44-46
- Billing, patient, computer and, 368
- Biobrane, 71
- Biofeedback, in hand rehabilitation, 308
- Biologic dressings, 69-74
- Biopsy, burn wound, 44-46
- Birth palsy, 185-187
- Blind, microprocessors for, 493-494
- Blood supply, of foot, 665-666, 667, 703
- of lower extremity, 703
- regional, and flaps for reconstruction, 581-593
- Blood vessels, injuries of. *See Vascular injury(ies)*.
- small, surgery of, 319
- surgery of, in modern era, 565-566
- Bone(s), defects, acute, with soft-tissue loss, 639-642
- chronic wound with, 642-643
- injury, following electrical burns, 80
- motion, three-dimensional description of, 390-391
- reconstruction, 645-655
- in open fractures of lower extremity, 624-625
- stabilization of, in complex foot injuries, 676-677
- surgery of, 275-280, 281-287
- Bone grafting. *See Graft(ing), bone*.
- Brachial plexus injuries, electrical assessment of, 416-417
- Buck-Gramcko method, in evaluation of tendon repair, 230
- Bullet wounds. *See also Missiles*.
- and nerve injury, 259-260, 262
- Burn(s), electrical. *See Electrical burns*.
- prevention of, 158-159
- Burn care, physical, physiological, and psychological, 147, 151-159
- postoperative, 63-64
- research, 64, 151-159
- Burn facilities, 154-155
- Burn formulas, for fluid resuscitation, 11-14
- Burn injuries, acute, 138-144
- rehabilitation of, 145-149
- Burn shock, clinical subsets, 14-16
- fluid needs in, 11-14
- pathophysiology of, 10-11
- Burn team, 155
- Burn wounds, management of, 57-67
- Cancellous bone graft, 284
- Capitate, kinetic analysis of, 396, 404
- Capsulectomy, in tendon grafting, 237
- Carbolic acid, use by Lister, 559-560
- Carbon dioxide laser, in hand surgery, 342
- Carbon monoxide poisoning, 32-34
- Carcinoma(s), of larynx, 482-483
- of nasopharynx, 478
- of thyroid, 485
- Cardiac function, measures for monitoring, in burn care, 24-25
- Cardiac monitoring, computer-assisted, 495
- Cardiopulmonary injury, following electrical burns, 79
- Carotid body tumor, angiograms in, 488
- Carpal bone motion, three-dimensional description of, 390-391
- Carpal tunnel syndrome, 258, 260-261
- Carpometacarpal joint, silicone implants in, 278
- Catecholamine release, thermal injury and, 50
- Catheters, pulmonary artery (Swan-Ganz), use of, 23-24
- risk of infection from, 23
- Causalgia, 263
- Central hand deficiency, 170-171
- Cephalogram(s), computers applied to, 450
- conventional, 449-450
- in facial surface measurements, 451-453
- three-dimensional, 452-455
- based on computed tomography, 453-456
- Cephalometrics, surface-based, need for, 461
- Ceramic calcium phosphate, implantation of, 284
- Chemoprophylaxis, 43
- Child(ren), congenital anomalies in, 169-173, 175-189
- Child abuse, burns in, 101, 159
- Chin, burns of, 134-136
- Civil War (American), devastation and suffering caused by, 557-559
- Cleft hand, 170
- Clefting syndromes, three-dimensional computed tomography in, 469-471
- Closure, delayed primary, in traumatic amputation, 599
- secondary, in traumatic amputation, 599-600
- Clowes, William, 4-6
- Club hand, 170
- Coherent scattering, 434
- Collagen, use as a wound dressing, 72
- Colloid, use in fluid resuscitation, 10-13
- Communication(s), intercomputer, 361-363
- Compressive neuropathies, 257, 260
- Compton scattering, 434
- Computed tomography, clinical applications of, 495
- for planning facial advancement, 458-459
- history of, 433
- images, production of, 442-443
- in craniofacial surgery, 441-448, 463
- in diagnosis of facial fractures, 433-440
- in diagnosis of laryngeal cancer, 482-483
- in diagnosis of nasopharyngeal tumors, 479
- in examination of nasal cavity and paranasal sinuses, 477-478
- in wrist injuries, cases illustrating, 395-403
- of head and neck malignancies, 475-491
- of lymph nodes, 485
- of wrist, 389-390, 392-395
- process of, 434-435
- surface reconstruction images from, advances in, 443-448
- principles of, 441-442
- surgical simulation based on, 456-461
- three-dimensional imaging in, 339, 455-456
- pediatric reconstruction and, 463-474
- Computer(s), and medical office management, 367-374
- applications in plastic surgery training programs, 375-378

Computer(s) (*Continued*)

- central processing unit of, 355-357, 359
- coding systems, 377
- communications between, 362-363
- diagnosis via, 496
- evaluation of functional and pathologic anatomy by, 389-405
 - for anatomy instruction, 379-387
 - for deaf and speechless, 493
 - for respiratory monitoring, 494
 - growth in 1980s, 354
 - hardware, miscellaneous, 363
 - in grafting, 205
 - in hand surgery, 337-339
 - in medical specialties, 493-496
 - in planning and evaluation of facial and orthognathic surgery, 449-462
 - languages, 364
 - monitors for, 357-361
 - office, uses of, 367-369
 - personal, hardware of, 356
 - main circuit board of, 358-359
 - programs, 363, 366
 - secondary storage devices of, 355, 357
 - selection of, 370-371
 - signal averaging, for evaluation of peripheral nerves, 407-418
 - software. *See Software.*
 - systems, choosing of, 369-374
 - components of, 355-357
 - storage and retrieval by. *See Data storage, and retrieval.*
- Computer-aided design system, 392
- Computer-aided design system/computer-aided manufacturing system, 396, 403
 - in craniomaxillofacial surgery, 463
- Computer technology, basic principles of, 355-366
- Computing, history of, 351-354
 - manual and mechanical devices for, 351-353
 - modern, 353-354
- Conduction studies, of nerves, 256, 258, 259
- Congenital anomalies, 169-173, 175-189
- Contamination, nature of, 737
- Continuous passive motion, in hand rehabilitation, 307-308
- Contracture, flap selection for particular areas of, 137-138
- Contusion, of blood vessels, 713
 - of nerves, 693
- Cortical bone grafts, 284
- Craniofacial deformities, computerized simulation of, 461
 - congenital, computed tomography in, algorithms for, 464-468
 - for pretreatment planning, 468-473
 - patients and methods in, 464
 - processing in, 464
 - stereophotograms in, 452-453
- Craniofacial surgery, computed tomography in, 441-448, 463
- Craniosynostosis, three-dimensional computed tomography in, 468
- Critical care, microprocessors in, 495-496
- Cross-contamination, 42-43
- Crouzon's syndrome, three-dimensional computed tomography in, 468-469
- Crystalloid, use in fluid resuscitation, 11-13
- Cubital pterygium, 170
- Cubital tunnel syndrome, 258, 261
- Cutaneous flaps, in aesthetic reconstruction of leg after trauma, 726
- Daddi, Bernardo, 6-7
- Data base(s), 364-365
- Data base fields, 364-365, 376-377
- Data base management, 376-378
- Data base programs, 338-339
- Data base services, 376
- Data collection, computer-assisted, 382-383
- Data display, in anatomy instruction, 383-386
- Data storage, and retrieval, 529-543
 - equipment and technology for, 530-534
 - future applications of, 529, 537-542
 - holographic technology for, 534-535
 - information organization for, 534-537
 - magnetic technology for, 531-533
 - memory chips for, 530-532
 - optical technology for, 533-534
 - unit, main features of, 529
- Data storage devices, 355, 357
- Deaf, computers for, 493
- Débridement, enzymatic, of burn eschar, 101, 152
 - in complex foot injuries, 676-677
 - in severe trauma to lower extremity, 621-622, 738
 - in traumatic amputation, 599
 - origin of term, 554
 - repeat procedures, in burn care, 82
 - technique of, 62-63
- Demineralized bone powder, implantation of, 284
- Denervation, signs of, 419-420
- Dermofluorometry, quantitative, in avulsion injuries, 703, 709, 710
- Desault, Pierre-Joseph, 554
- Design system, computer-aided, 392
- Dextran, use in fluid resuscitation, 13
- Diabetes, foot infections in, 744
- Diagnosis(es), computer-aided, 495-496
 - monitoring of, Slow Scan Television in, 504-505
 - of peripheral nerve problem, 255-260
 - of tendon injury, 222
 - preliminary automatic, image processing in, 524-525
- Diagnostic imaging, in congenital anomalies, 187-188
- Dictation, medical, speech recognition systems for, 510-511
- Digit(s). *See also Finger, Toe.*
 - absence of, 171, 178-180
 - enlarged, 172
 - hypoplastic, 181
 - multiple or excess, 171-172
- Digital tags, of hand, 171
- Disk(s), floppy, 357, 360, 377-378
 - hard, 357, 360
 - laser, 357
- Disk operating system (DOS), 363, 370
- Doctor-patient interaction, data storage and retrieval systems contributing to, 538-539
- Dysostosis, cleidocranial, cephalogram in, digitized tracing of, 451
- Ears, burns of, 126-127
- Economics of burn treatments, 39-41, 156
- Edema reduction, in scar remodeling, 306
- Education, by computers, 378
 - continuing, data storage and retrieval system in, 541-542
- El Quenado, 3-4
- Elbow, congenitally webbed, 170
- Electrical burns, effects on organ systems, 75-85
 - of the mouth, 87-94
 - types of, 76-77

- Electrical current, and bone healing, 282
and nerve regeneration, 264
- Electromagnetic fields, and bone remodeling, 282
- Electromyogram, in peripheral nerve problems, 256
in ulnar nerve syndromes, 258
- Electromyoneurography, activity, collection with
computers, 422-423
frequency analysis of, 426-427
computerized, 419
data, modeling, 429-430
statistical analysis, 427-429
in peripheral nerve surgery, 430
motor unit action potentials and, 420, 429-430
signal detection techniques, 420-421
signal processing, 421-423
computers for, 421-422
signals, automated analysis of, 423-430
- Elizabethan era, burn treatments during, 4-6
- Encephalocele, nasal, computed tomography in, 444-445
- nasofrontal, three-dimensional computed tomography in, 469-470
- Enophthalmos, post-traumatic, computed tomography in, 443-444
- Entrapment neuropathies, 255, 257-258, 260
- Epineural repair, of peripheral nerve, 249, 252
- Epithelium, autologous cultured, in burn care, 100
- Ertl osteomyoplasty, 606, 607, 609
- Escharotomy, 61, 108
- Ether anesthesia, introduction of, 556
- Excision, serial, in aesthetic reconstruction of leg after trauma, 725
- Exercise, in scar remodeling, 306
in tendon repair, 228-229
- Expert systems, medical, data storage and retrieval and, 539-542
- Extension, in scar remodeling, 306
- Extracorporeal preservation, 323
- Eyebrows, burns of, 127-129
- Eyelids, burns of, 129-130
- Face, burns of, 131-134
fracture(s) of, computed tomography in diagnosis of, 433-440
three-dimensional imaging from computed tomography in, 456-457
surface measurements, cephalometrics in, 451-453
surgery of, computers in planning and evaluation of, 449-462
trauma to, three-dimensional computed tomography in, 473
- Facial advancement, computed tomography for planning, 459-459
- Fascicle(s) anatomy of, 250
identification of, 262
in peripheral nerve surgery, 254, 261
repair of, 249, 252-253
- Fasciculations, 419
- Fasciotomy, 81, 108
- Fast Fourier transformation, 425-426
- Fiberoptic bronchoscopy, in burn care, 35-36
- Fibrillations, 419-420
- Fibrous dysplasia, three-dimensional computed tomography in, 471-473
- Fibula, free, for long segmental defects, 641-642
- File clustering, data storage and retrieval systems in, 536
- Finger(s). See also *Digit*, *Toe*.
arthrodesis of, in rheumatoid arthritis, 277
silicone implants in, 278
syndactyly of, 170-171
- Finite element method, for facial osteotomies, 459-461
- Fixation, external, 282-283
- Flame burns, 83
- Flap(s), fasciocutaneous, from leg, 590, 592
of thigh, 584-586, 587, 588
for coverage, in burn care, 116-117
in chronic osteomyelitis, 658, 659-660
for reconstruction, following head and neck burns, 119-136
in foot defects, 683, 684, 685
in foot injuries, 668-676, 677
selection of, blood supply and, 581-593
free, microsurgical techniques in, 320
free microvascular muscle, with skin grafts, foot reconstruction using, 681-689
in aesthetic reconstruction of leg after trauma, 726
in soft-tissue defects, in open tibia fractures, 625-626
in traumatic wound care, 739
island pedicle, history of, 197
muscle, history of, 197-198
selected for particular areas of contracture, 137-138
- Flex-foot prosthesis, 610, 613
- Flexion, in scar remodeling, 306
- Flexor tendon, surgery of, 211-220, 221-242
- Fluid resuscitation, burn formulas for, 11-14
historical perspective of, 9-10
individualized approach to, 16-18
patient response, monitoring of, 19
thermal injury, role in, 9-20
- Foot, Achilles tendon, reconstruction of, 671-673
amputations, forefoot to midfoot level, 607
hindfoot to ankle level, 606, 607
anatomic considerations in repair and reconstruction, 664-666
anatomy of, 573-574
blood supply of, 665-666, 667, 703
defects, extensive, operative procedure in, 682-684
postoperative management in, 684, 688
preoperative considerations in, 681-682
dorsum of, reconstruction of, 675-676
injuries, classification of, 663, 664
preoperative assessment of, 663-664
Types I and II, reconstruction of, 666-676
Type III, reconstruction of, 676-677
malleoli, reconstruction of, 671-673
nerve supply of, 666
plantar area, avulsion injury of, 702, 705, 707, 708, 709
reconstruction of, 673-675
posterior heel, reconstruction of, 671-673, 674, 675
reconstruction of, 663-680
free microvascular muscle flaps with skin grafts in, 681-689
reconstructive options by region, 666, 667, 672
weight-bearing heel and midplantar area, reconstruction of, 668-671
- Fracture(s), Grade III, acute, management of, 634-639
bone grafting techniques in, 637-639
definitive soft-tissue coverage of, 636-637
fixation techniques, 635-636
healing of, 281, 645-646
lower extremity, difficult, and nonunions, management of, 633-644
nerve injury and, 259
open, classification of, 633-644
complex, salvage techniques in, 643-644
of lower extremity, soft-tissue damage in, acute management in, 621-630, 631-632
Type III, of lower extremity, 626-628
splinting of, 301-302

- Fracture(s) (*Continued*)
 type, coding for, 635
 vascular injuries in, 712
 Free flap, microsurgical techniques in, 320
 Free grafting, 195-196
 of tendons, 211-217
 Free transfer, immediate revascularization in, 198-199
 Frequency domain analysis, of electromyoneurography signals, 425
 Function, of hand, loss of, in rheumatoid arthritis, 275
 restoration of, 293-300, 301-309
 Fusion, intercarpal, 285
- Gait, analysis, 577
 cycle, 574
 stance events and swing phase events in, 575-577
 definition of, 574
 pathology, 577
 Gangliosides, and axonal regeneration, 264
 Gangrene, hospital, 557
 Gaps, nerve, 253-254
 Gastrointestinal complications, following electrical burns, 80
 Glomus vagale, carotid angiograms in, 488
 Glove-stocking injuries, 102
 Glucagon, thermal injury and, 50
 Glucose, blood levels, thermal injury and, 46
 metabolism, in thermal injury, 51
 Graft(ing) 195-203
 bone, 284
 general principles of, 646-647
 in acute defect with soft-tissue loss, 640-641
 in grade III fractures, 637-639
 in long segmental defects, 641-642
 nonvascularized autogenous, 647-649
 vascularized, 649-650
 flexor tendon sheath, 240
 in vascular injuries of leg, 717, 718, 719, 720
 nerve, 254, 261-262
 skin, 195-203, 205
 free microvascular muscle flaps with, foot reconstruction using, 681-689
 in foot injuries, 671, 673, 675
 tendon, 211-217, 238-239
 one-stage, 231-235
 two-stage, 235-236
 vascular pedicle, microsurgical techniques in, 317-318
 Granuloma formation, 37
 Graphics, computer, in hand surgery, 337-338
 Graphics researchers, speech recognition technology for, 510
 Gritti-Stokes procedure, 611-616
 Gross, Samuel D., 558
- Hand. See also under specific conditions, anatomic parts, and procedures.
 fractures of, 281
 Hand centers, establishment of, 298-299
 Hansen's disease, and hand rehabilitation, 297
 Hardware, computer, miscellaneous, 363
 for personal computer, 356
- Head, malignancies of, computed tomography in, 475-491
 and neck, reconstruction following burns of, 119-136
 Healing, of bone, 282
 of tendons, 221-222
 Heart disease, diagnosis and treatment of, computers in, 494-495
 Hemorrhage, and nerve injury, 255
 Hip, anatomy of, 571-572
 disarticulation, 615, 616
 Holograms, for data storage and retrieval, 534-535
 Hormonal interactions, burn shock in, 11
 contamination and colonization in, in burn patients, 41
 Hormonal regulation, and bone healing, 282
 Hunter, John, 554
 Hydron, 71-72
 Hydroxyapatite, implantation of, 284
 Hypermetabolism, thermal injury and, 49-55
 Hypertelorism, in craniofacial deformities, 453
 Hypopharynx, normal anatomy of, 479
 Hypoplastic hand, 171
 Hypoplastic thumb, 180-181
- Image processing, basic definitions in, 514
 description of, 513
 equipment for, 520-521
 future applications of, 521-525

- Training programs, plastic surgery, computer applications in, 375-378
- Translation, in joint motion, 303-304
- Transplantation, allograft, 284-285
- Tamayo, Rufino, 3-4
- Team burn care, 155
- Telecommunications, 375-376

- Transplantation (*Continued*)
 microsurgery in, 315-318, 323
 of small joints, microvascular, 283-284
 Trapeziometacarpal joint, in resection arthroplasty, 278
 Trauma, aesthetic reconstructions of leg after, 723-733
 multiple system, limb salvage in, 596-598
 of lower extremity, soft-tissue infection in, 735-745
 Treacher Collins syndrome, craniofacial deformities in, 452
 three-dimensional computed tomography in, 469, 471
 Tumor(s), magnetic resonance imaging in, 340-341
 malignant, of nasopharynx, 478-480
 computed tomography in diagnosis of, 479
 nerve sheath, 255, 260, 262
 pediatric, three-dimensional computed tomography in, 471-473
 Two-stage grafting, of tendon, 235-236
- Ulna club hand, 170
 Ulnar nerve, entrapment syndromes of, 258-259, 261
 Upper extremities, burn care of, 107-118
 tissue transfer in, 137-144
- Vapor permeable synthetic dressings, 99
 Vascular injury(ies), lower limb, diagnosis of, 712-714
 management of, 711-722
 mechanism of, 711-712
 Vascular pedicle graft, microsurgery in, 317-318
 Vascular surgery, in modern era, 565-566
 Vessels, small, surgery of, 319
 Video, slow scan, in teleconferencing, 499
 Video conferencing, and real-time communication, 497-507
 Videodisk, optical, 380-382
 Vietnam War, wound management during, 566
- Vision device, artificial, 494
 Voice, in speech recognition technology in medicine and surgery, 509-511
- Walking, center of gravity in, 574-575
 energy costs for, 579
 gait velocity and, 575
 normal cycle, events in, 577, 578
 WASUBOT, capabilities of, 510
 Word processors, 364
 Work simulators, in hand rehabilitation, 307
 World Wars, and hand rehabilitation, 296-298
 wound management during, 561-564
 Wound, coverage, temporary, 63
 Wound care, 109-110. *See also Surgical management.*
 in severe trauma to lower extremity, 622
 Wound infection, in lower extremity trauma, 735-745
 miasmatic theory of, 557
 Wound management, coverage versus direct closure, 739
 Wringer injuries, 103
 Wrist, arthrodesis of, in rheumatoid arthritis, 277
 arthroplasty of, in rheumatoid arthritis, 279
 assessment of, computer-assisted, 389
 computed tomography scans of, 389-390, 392-395
 fractures of, 281
 injuries, computed tomography of, cases illustrating, 395-403
 silicone implants in, 281-282
 stabilization of, in rheumatoid arthritis, 276-277
- X-rays, Slow Scan Television in transmission of, 504
- Yttrium aluminum garnet laser, in hand surgery, 342
